

WORLD RENOWNED MATERIALS HANDLING SYSTEMS

System Plast has been a market leader in the development and production of conveyor components for a wide range of applications. Our range includes conveyor chains, modular belts and components. With over 20 years experience in our field, System Plast can service the industry with the largest offering of its kind, coupled with unsurpassed technical support.

Continuous research and development guarantee quality products and performance reliability. Application issues like efficiency demands, noise reduction and hygiene are all dealt with in detail and delivery standards met with timely precision.

System Plast has created, and is dedicated to maintaining a state-of-the-art product line which has given us a strong position with Machine Builders and End Users in the industries that we serve.

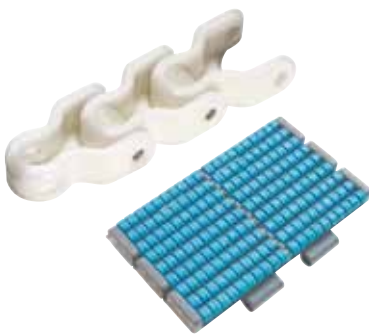

LARGEST PRODUCT OFFERING - COMPETITIVE PRICING – QUALITY & PERFORMANCE - TECHNICAL SUPPORT

PRODUCT LINE

CONVEYOR CHAINS

Outstanding quality and performance, offering solutions for the widest applications range.

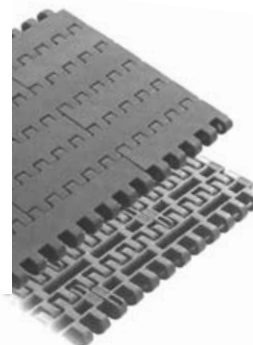

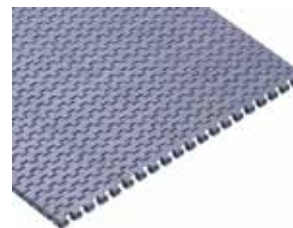

- Straight Running Chains
- Magnetic Side Flex Chain
- Side Flex Chain with Tabs and Bevels
- Chains with Rubber Pads
- Gripper Chain
- Snap-on Top Plate Chain
- Multiflex Chain
- Crate Conveyor Chain

CONVEYOR BELTS

The unique polymers used for System Plast modular belts, effectively address challenges such as line efficiency and durability.

- Straight Running Modular Belt in ½” and 1” pitch
- Magnetic Side Flex Chain Belt 1”pitch
- Tab Side Flex Chain Belt 1”pitch
- Modular Belts with LBP Rollers
- Modular Belts with Rubber Top

BEARING SUPPORTS

Suitable for exposure to all types of challenging environments like water, chemicals or dust. The bearings are all coated with CorroFree™, combining the optimum wear life of Chrome Steel with improved corrosion resistance.

- Flange Bearing Supports
- Pillow Block Supports
- Take-up Supports
- Bearing Houses in Stainless Steel

CONVEYOR COMPONENTS

Unlimited range of parts is ideal for construction and assembly of conveyors, product handling systems and related machines. Offers exceptional strength and chemical resistance.

- Guides and clamps
- Adjustable heads and knobs
- Side mounting support heads
- Threaded tube ends
- Straight and corner tracks

SPROCKETS AND IDLERS

Full range of Sprockets and Idlers for all System Plast Chains and Modular Plastics Belts.

Offering the best combination to optimize interaction between Sprocket and Chain or Sprocket and Modular Belt.

- One-Piece Sprockets
- Split Sprockets
- Spool Idlers
- Split Idlers

LEVELLING PADS

- Thermoplastic, Steel and Stainless Steel
- Fixed or Articulating
- Vibration Absorbing
- Anti Slip
- Threaded Tube Ends

STRUCTURAL COMPONENTS

Comprehensive range of profiles, connectors and accessories. Provides versatile designing and effective manufacturing of machined guards. The frames allow for easy access to the machines for operation and cleaning.

- Clamps, joints, fixing blocks, latches
- Tube ends, closing caps
- Locks, hinges
- Profiles
