

Product Specification **A7039-1 Dark**

Taconic's A7039-1 Dark is a PTFE coated glass fibre product with a high PTFE content and silicone adhesive, with a corrugated yellow backing liner. Mainly used as a high temperature release material in the packaging, plastics and composite industries as well as a liner in mould release applications, A7039-1 Dark is seen as offering superior release, value and performance. Standard width of A7039-1 Dark is 1000mm with availability also as slit rolls from 10mm and upwards.

Product Properties	Units	Value	Tolerance	Test Method
Adhesive Type		SILICONE		
Substrate Type		E-GLASS		
Total Weight of Substrate	g/m2	155		ISO 2286-2
% Coating of Substrate	%	68		
Substrate Thickness	micron	78		
Adhesive Thickness	micron	40		ISO 2286-3
Total Product Thickness	micron	118		
Adhesive Strength	N/25,4mm	10	Typical	ISO 8510-2
		7	Minimum	
Operating Temperature	°Celsius	-73° to +260°
