

Product Specification **A7109**

Taconic's A7109 is a PTFE coated glass fibre product with a premium PTFE content and silicone adhesive, with a corrugated yellow backing liner. Mainly used as a high temperature release material in the packaging, plastics and composite industries as well as a liner in mould release and roller covering applications, A7109 is seen as offering best release, value and performance. Standard width of A7109 is 1000mm with availability also as slit rolls from 10mm and upwards.

Product Properties	Units	Value	Tolerance	Test Method
Adhesive Type		SILICONE		
Substrate Type		E-GLASS		
Total Weight of Substrate	g/m2	534		ISO 2286-2
% Coating of Substrate	%	62		
Substrate Thickness	micron	245		
Adhesive Thickness	micron	70		ISO 2286-3
Total Product Thickness	micron	315		
Adhesive Strength	N/25,4mm	12	Typical	ISO 8510-2
		10	Minimum	
Operating Temperature	°Celsius	-73° to +260°
